ASLI Holds Meeting in Connection with Annual Meeting

For the third year, the Atmospheric Science Librarians In-

ternational (ASLI) is holding a meeting in connection with the AMS Annual Meeting. This year's ASLI meeting will occur on Wednesday through Friday.

The complete program for the meeting can be found starting on page 16 of the Annual Meeting Program. The meeting will feature presentations by speakers on a variety of library

AMS Awards Banquet

The Annual Awards Banquet will be held tonight, starting with a reception at 6:00 P.M. in Exhibit Hall A, followed by the banquet at 7:30 P.M. in Exhibit Hall B.

Outgoing president George Frederick will serve as Master of Ceremonies for the events. He is expected to express the Society's thanks to the short course and scientific program chairs, as well as to the chairs of the conferences and sympo-

issues, and a special presentation of spectacular footage of the May 1999 Oklahoma tornadoes with commentary by Dennis McCarthy of NOAA. This year's meeting will also include a business meeting, in which ASLI members will discuss newly developed ASLI bylaws, and discussions on archiving electronic journals. On Friday, ASLI has organized a field trip to NASA's Jet Propulsion Laboratory in Pasadena (registration for this field trip was required prior to the week of the meeting).

ASLI is an open forum for librarians around the world to discuss and exchange information relating to the atmospheric sciences. ASLI is specifically aimed toward librarians and library staff, but anyone is welcome to join the organization or participate in the ASLI meeting this week. One of the goals of ASLI is to help ensure that librarians are informed about technologies emerging continuously in the fields of information and atmospheric science.
